

Satellite Data Pricing Schedule

Data Type	Fees
PRINTS¹	
Custom Images - Prints (8"x10" and 11"x17") Other delivery options available	\$87.00 each (add \$25.00 for each additional channel for FTP same scene. Copies: add \$10.00 each.)
Reproduction Images	Hundreds of special event images, as well as, hurricane posters, can be viewed and ordered directly online at www.ncdc.noaa.gov/ol/satellite/olimages.html Many online images can be downloaded for free, as well.
DIGITAL (scientific data)	\$137.00 per 600 megabytes ² (\$10.00 minimum)

Additional Fees

\$11.00 service and handling (includes FTP orders)
 \$20.00 foreign shipping fee
 Add 50% to cost for RUSH orders (filled within 4 working days)

Footnotes:

¹ quotes on other formats provided. **Custom images** are created using customer defined parameters such as time, location, resolution, and any special enhancements. **Reproduction images** are copies of existing images, usually of a significant event such as a hurricane. These can be ordered online or downloaded directly for free.

² please contact the Satellite Services Group
 (www.ncdc.noaa.gov/oa/about/ncdccontacts.html#SATELLITE)
 for a price quote. Also, visit NOAA's CLASS web site for availability of free digital satellite data and products at www.class.noaa.gov. Most of the NOAA's POES data from 1979 to present are available for ftp delivery. NOAA's GOES data are available online since December 1, 2003. Please e-mail to saainfo@saa.noaa.gov regarding subscription and bulk order services from CLASS.
